It is imparative that satellite radio remain intact. I have over 3 hours of commuting time each day. This would not be possible without my XM Satellite Radio. It provides the variety and quality in radio that I cannot get elsewhere (without the 'trash talk radio' that the typical radio stations play). I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I urge you, the FCC, to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
